

"Feeling is the Secret"

Illustrator

Deusdraws is a Serbian Illustrator, who focuses on exceptional illustrations for the game industry and book illustrations. His goal is to connect art and observer through strong emotion and make good, unique illustrations. The artist is exceptional in his colorful specter and color combinations.

The logo is Artist's first original character ever designed. It is a Dragon God named Istragon and it is his trademark. The name Deus (in Latin means God) is connected to the artist's personal beliefs that he merged with his illustrating process. The colors on the logo are the colors of the dragon as well as the colors that represent the artist himself. Navy and Artic blue are colors that are the closest to the artist and they are a mix of relaxed and sharp emotions of his art.

The target audience of Deusdraws is mostly all the people who read illustrated books or play games. Deusdraws delivers clear, strong, unique illustrations for his target audience to bring fun, joy, and inspiration.

To work with Deusdraws means to work with a professional thinker, philosopher, designer, and above all of that reliable and inspirational person. Clear in conversations, the wanted goal is always reached, with no exceptions.
